

Introducing Benefit Spot

24/7 Access for the Employee on the Go

Did you know that the average person spends nearly six hours per day on digital media? With the Benefit Spot mobile app, provided by HUB International, you can give your employees easy access to their benefits anytime, anywhere.

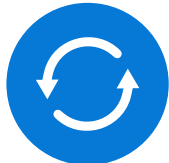

Key Features

- Up to nine home page buttons
- “Tap to call” function
- Unique company code employees can enter when opening the app, to access your company’s benefits information
- Links to benefit resources, including Benefits Guide and plan documents
- Links to cost comparison tools and carrier contact information
- Compatible with Apple and Android devices

- Home Page Button Options**
- Benefits
 - Contacts
 - Videos
 - Terminology
 - Eligibility & Enrollment
 - Benefits Resources
 - RX Pricing
 - Medical Pricing
 - Call HR or Service Center
 - Telehealth
 - EAP

Getting Started

Initial Phase

Reach out to your HUB International contact, who will help initiate the process of creating Benefit Spot for your organization.

Implementation

The implementation process, including initial setup, testing and approval, takes approximately 15 business days.

Launch!

Once the mobile app is in place, HUB will provide you with communications to distribute to your employees.
