Getting Started

Initial Phase

Reach out to your HUB International contact, who will help initiate the process of creating Benefit Spot+ for your organization.

Implementation

The implementation process, including initial design and app setup, testing and approval, takes approximately five to six weeks.

Launch!

Once the mobile app is in place, HUB will provide you with communications to distribute to your employees.

Complimentary promotional materials include a QR code for quick, easy access.

Try Benefit Spot+ today!

To explore the app yourself, simply search “Benefit Spot” in the Apple App Store or Google Play on your mobile device. Download the app and enter company code: [CUSTOM1](#).

NOTE: The company code is case sensitive.
